Q What is your occupation? A Manager, Sweet-Wallach and Company.

Q What business are they engaged in? A Photographic supplies.

Q Where is there place of business located? A 133 North Wabash avenue.

Q Mr. Sievers, you passed the building on the south-east corner of Washington boulevard, at Jefferson street, yesterday?

A I didn't recognize Jefferson street.

Q That is the street all right. A Yes.

Q At the time you were on Jefferson or Washington boulevard? A Washington boulevard.

Q Were you walking or occupying some vehicle? A Driving my machine.

Q The automobile was east or west-bound? A East-bound.

Q What particular part of the street was your automobile, on the car tracks or was it in that portion of the street between the car tracks and the curb? A Between the car tracks and the south curb.

Q Who, other than yourself was occupying the machine?

A My wife and her two nieces.

Q Was it a right or left-hand drive? A It was a left-hand drive.

Q Were you operating the machine? A I was.

Q And whereabouts in the machine was your wife sitting?

A Back seat.

Q Now, sitting along side of one of the nieces -- what was the young lady's approximate age? A Nineteen.

Q While passing the alley between Jefferson and Clinton, what, if anything did you see? A Just as we passed the alley, I saw two jackies, and two girls.

Q Were both of the two members of the United States navy?

A Yes.

Q They were dressed in that uniform? A Yes, sir.

Q With reference to the alley, where were they, right at the entrance of the alley or east or west of the alley?

A They were east of the alley, but I couldn't say just how near, ten or twenty feet.

Q Were they moving or standing still? A Why, as I remember, the front couple were moving along very slowly.

Q When you speak of the front couple, do you mean the couple that was to the west or to the east? A To the west.

Q Go ahead? A The front couple were walking along slowly.

Q Which direction? A West.

Q Go ahead. A Add arguing about something. And the back couple, as I passed seemed to have just about stopped to see what the other couple were going to do. That is the impression I got, the way they acted. I didn't pay much attention to the jackies.

Q Your attention was attracted to the ladies? A To the ladies, because I thought they looked very flashy. They were young girls, but very badly powdered.

Q And would you recognize the ladies or one of the ladies if you saw them here again? A I am not sure; I think I would.

Q In regard to the navy men, would you recognize either one of them? A I might.

Q With reference to their dress, that would help in some manner, as to whether they had on trousers or whether they had on leggings or the uniform, if it was blue or if it was white?

A It wasn't white, I don't think.

Q It was regular blue? A Yes.

Q Were the trousers plain or leggings on; did they have on leggings? A I couldn't say.

Q With reference to their dress, did they appear to be mussed up in any way? A I can't recall about that. I went by, only took a few seconds to go by.

Q I realize that. Did they show any signs of drink or anything? A I don't think that the girls did.

Q And the man? A The back man might have had some drink. I couldn't say anything about the front one; I got past when they were arguing.

Q Did you hear any loud or angry words spoken? A No.

Q Whatever was said was said in a subdued tone? A Yes.

Q At that time you were not aware of the fact that a body or one of the men in the Navy was found in the building?

A No.

Q You learned that by reading ~~this~~ the newspapers this morning? A Well, I first heard of it last night on my way back ~~from~~ home. A man stopped me as I was going along Clinton avenue, for a ride, and it transpired that he was a reporter on the Examiner. He mentioned it to me, and got off in a couple of blocks.

Q That brought this other incident back to your mind?

A Yes, that brought it back to my mind that I had seen this.

Q Now, is there anything further, Mr. Sievers, that you know about the case that I may not have asked? A No, I can't say.

Q What time was it approximately that you passed?

A I should judge about one forty-five.

Q P.M.? A Yes.

Q The police may call upon you later. I would like to get all the address that I possibly could out of you, so they can locate you in a short time? A My phone is -- I am not sure; they have changed it lately.

CAPTAIN MEAGHER: I have got it.

THE DEPUTY: Is there any question that you would like to ask, Mr. Turner?

Q Those are the markings you have there externally?

A Yes, sir.

Q There are some markings internally -- his mouth is

Q You haven't been able to ascertain that, as yet?

A I was rushed down here in about two minutes time; I didn't get any information.

Q Of course, I would like to have that information, if I

possibly could. It may be, by making an investigation among his associates you would probably be able to find out who he was in the habit of going with. In other words, his pal. They ~~gank~~ generally go in a bunch, have two or three of them when they go together, when they come in? A Yes, sir.

Q You would be able to learn that, too, wouldn't you, doctor? A Yes, sir; it would be no trouble at all.

THOMAS O'MALLEY,

Q Your name? A Thomas O'Malley.

Q And you reside where? A 4128 Wilcox Street.

Q Occupation police officer, what precinct?

A 27th, Desplaines Street.

Q Now, Officer, in this case, when were you detailed to investigate it?

A About four o'clock on the 11th day of November.

Q That would be Sunday? A Sunday.

Q Upon being detailed where did you go?

A I went to 565 Washington Boulevard.

Q Go ahead and tell it yourself.

A I walked into the station at four o'clock, probably two three minutes before, and I met the Captain coming out. He says, "Keep your coat on, I think we have got a bad case over here." And he went and got his coat and we went over there. The engineer was there, but I didn't talk to the engineer at that time, that is the chief engineer of the building. We went up on the third floor, into the building from the rear -- went into the back way, and upstairs, and he let us into the rest room, on the

third floor. There is a door going into the room. This man laid on his stomach, his hands back like that (indicating), and laying on the right side, his head and his face to the south, laying crossways in the room. There was a couch laying on that side of the building.

Q West side?

A West side of the room. There was a table in there as big as this (indicating), just about a foot south of his head and that couch. There was a rug like this (indicating), and it was all mixed up. This man's pants laid over on the table, also his white cap, and he had nothing on but underdrawers, undershirt and uniform soldier's outside shirt and his body was exposed right across the kidneys, and when I put my hand on him I said to the Captain, "He is not dead, he is very warm," and I run downstairs and called the station and told them to send the ambulance and the doctor over as quick as they could, and they came over and the doctor felt of his pulse and listened to his heart, and he said, "He is dead; I cannot find any life." And I said, "Are you sure he is?" He says, "I can't find any life." So then we removed the body. And we traced this blood then from the room. There was blood on that side of

the wall. (Indicating).

THE DEPUTY: Indicating the west side of the wall.

THE WITNESS: Then he didn't seem to hit this side of the building at all (indicating).

THE DEPUTY: Indicating the south wall.

THE WITNESS: Then he came around on the east wall in two or three different spots of blood, and then he got up -- and he apparently got up against this north wall and the blood ran down along the wall, he had went along apparently on the wall.

THE ~~WITNESS~~ DEPUTY: Extending up above.

THE WITNESS: And the blood ran down along the wall. Then we traced that blood along the hall, over into the side, and he tried the door there, and he tried the door over there (indicating); then the hall runs north and he tried door there and that is where he came in from the landing, and he tried that door, those doors except one. Then he led out onto the real landing of the third floor coming up on the first and second stairs down, there was blood ~~and~~ on that, blood all around the platform here (indicating); you could see by his hands the man was prying to get in, it was covered with blood around there. We didn't find any blood on

the stairs, until we went to the second floor, just as you come on the landing there was blood on that knob, and that is about the first blood that we found there. We didn't find any blood on the down stairs, the first was on the second landing, on the door.

We then stayed around there several hours, around through the district and trying to get some information. We didn't get any information that night, and we sent to the Great Lakes, and had Mr. Robinson of the Paymaster's Department come down here, and he identified him for us, and we sent word to his people. He had a ring on his finger, he had two rings in fact, and the next morning we detailed Sergeant Rice, ~~xxxxxx~~ Walsh, Sullivan and Hearn to go and make a tour of the pawn shops, second hand stores or any place where we thought this man might have his jewelry, as we had got some information from this lady here (indicating Miss Williams) that he had called her up at half past seven. We also went to this jewelry house. He had some stuff pawned, and we went to several jewelers. We went to this place at 537 Madison Street, and we found there a Becker had his watch in pawn, and also had the initials put on his ring. They brought over Mr. Ginsberg, who is the

jewelry store, and he said it was he that had pawned a watch in there, and also that he was under the name of Schultz. That was the first we heard of him -- then I went to the Great Lakes to find out what time Becker had been on a leave of absence up there, and I found that the 10th of November at four o'clock was the last he was seen there. He was under the command of Commander Riley, and he was talking to a man named Bennett, who was there, and he asked Bennett if he was going in town. He said, "You are not going off today." He said, "If I can't get off, I am going over the fence."

Q What is meant by that expression, do you know?

A He was going to go away anyway, as he figured lots of times they go away a short time like that and nobody knows it.

Q He didn't mean that he was going to desert?

A No, coming to Chicago.

Q And then go back again?

A So he asked Bennett, "Where will I see you?"

Bennett said, "I am going out to 25th and Halsted, where we were to a party previously." And he said, "All right, I will see you out there." And he said, "Will you be out there?" He said, "All right, I will see you out

there." The next we heard was when he talked with this lady, and that was at seven o'clock.

Q Saturday night?

A Yes, on the 10th. The same Saturday night on the 10th he called over the telephone to Miss Williams telling her that he could not get out there; ~~xxxx~~ half past seven was the time he was to meet her at her home, as they were going to a party. He said he had to go to 26th and Halsted Street to see a friend of mine, who wants to see me before I go away. So she waited until ten o'clock and he did not come and she went to bed and didn't hear any more from him.

Then the next we heard anything about any trouble was a man in the building at 601-613 Washington Street, the neighborhood. He heard an awful fight in the rear of 601 -- no, 613 is the number -- it is all one building anyway. So we interviewed him, and he will be here today to tell you his story. He heard an awful fight out in the alley.

At ten minutes after eight there was a man by the name of Thomas C. Nolan, who is a clerk for the C. B. & O. He stated that about ten minutes after eight that he saw a sailor at the coroner of Jefferson

and Washington, and the sailor came apparently from the south on the west side of the street. As they were about to meet at the corner the sailor went and turned east and he did not say anything to the sailor, but he was all covered with blood. He tried to see whether he was a white or colored man.

Q That was what time?

A Ten minutes after eight Saturday night. He went along and passed the sailor and went along about his business. Right in front of this building he turned around to see how the sailor was getting along and the sailor had disappeared off the street.

THE DEPUTY: I will say, Officer, having been present at the post mortem examination with Dr. Reinhardt, the Doctor remarked that this man evidently had received the injuries a long time before he died; in other words because of the hemorrhage. The hemorrhage was a slow hemorrhage and that undoubtedly he lived for a number of hours after he received the injuries before death occurred. Of course, the body was not found until several --

THE WITNESS: Four o'clock.

THE DEPUTY: And I saw the markings as the Doctor in-

located. It was between the skull and the duramatur and the blood was unable to escape. As it grew larger it kept pressing all the time, and that would take quite a number of hours before it would cause death.

THE WITNESS: That is the last he seen; he didn't say anything, as he was in a hurry to go over town.

THE DEPUTY: Q What time was it when this man heard a fight in the alley?

A Eight o'clock.

Q About ten minutes after the fight?

A Nolan saw him all covered with blood.

Q That would indicate, Officer -- 600 would be west of the Sharples Building? A Yes.

Q It would be in the block west of that, west of Jefferson Street? A Yes.

Q So the time closely fits with that fight that took place in the alley. He evidently was in that Sharples Building from ten minutes past eight until he was found?

A Four o'clock next day.

Q It might have been ten or twelve hours before this man had died? A Yes.

Q He evidently had not been bleeding more than -- that is he was dead less than six hours?

A Yes. It might have been -- oh, two or three hours at the most.

Q Exactly. A Then this Mr. Nolan came in next day and told about what he saw.

THE DEPUTY: I also have a statement from some man by the name of Sievers. He was the man who was driving by on Sunday with his family in the automobile and saw two sailors and two ladies right on the east of the alley where the entrance is to this Sharples Buildings, just east of that, and that they kind of split up and that the women acted as though they wanted to take the sailors some place. But I don't think there is any connection with this case.

THE WITNESS: No, I don't think so.

THE DEPUTY: I think you have got it pretty nearly clearly up, with this man who heard the fight and with the other gentleman of the Burlington road, that connects it up.

THE WITNESS: We have got some of the blood there, and we had it analyzed, and it was human blood. Then the day that blood was found, Sergeant Sullivan went over there, and I interviewed several boys that were down, but they didn't know anything about him.

THE DEPUTY: Q The other man was in the alley, he didn't look out?

A He never went out at all.

Q What is his name? A Patrick Redmond.

Q I might just ask this one further question --

A I will explain that alley: This alley runs in here from Washington Street (indicating).

THE DEPUTY: Indicating going south.

THE WITNESS: To about there (indicating).

THE DEPUTY: Midway between Madison and Washington.

THE WITNESS: And then there is an alley running east, and also one --

THE DEPUTY: A "T" shaped alley.

THE WITNESS: And then you go over there about that way (indicating), and there is a jog in that alley here (indicating) and the one west is there (indicating).

Q Did you go back in that alley for blood spots in the alley?

A Went all through the alley.

Q And find none? A No blood at all. We got in the rear of Washington Boulevard, and there is a loading platform right in here (indicating) and right here is where we found blood, and there is also an iron

flange on the cement there, where they back up, and that is a pretty sharp edge, and right there is where this big pool of blood.

Q This man's watch and stuff are gone, are they not?

A His watch was gone, but he had his rings.

Q His watch is gone? A Yes.

Q With reference to any moneys on his person?

A No.

Q There was no moneys found on his person? A No.

You see when he went out east on Jefferson he turned to the north.

Q And then up into the Sharples Building?

A Then he went east.

THE DEPUTY: I will state, Officer, that our Doctor was unusually careful in examining the stomach and there was absolutely no liquor in him.

THE WITNESS: He couldn't have any liquor; he didn't leave up there until four o'clock.

THE DEPUTY: The reason I speak of that is this: Because it would indicate that this man did not receive the injuries while staggering under intoxicating liquor.

THE DEPUTY: No. The people that I interviewed say that he was like anybody, would take a drink but not

enough to get drunk.

Q But evidently on this occasion he had no liquor, there was no indications whatever of liquor in the stomach.

THE WITNESS: He would take a glass of beer or ~~xxx~~ drink; he could not be drunk because the man only left there at four and he got in here at seven.

THE DEPUTY: And evidently this is a case of assault and murder.

THE WITNESS: Yes, sir; absolutely.

THE DEPUTY: Assault, robbery and murder.

THE WITNESS: Yes, sir.

I wish to submit these statements, which are original records in our files.

THE DEPUTY: They will be copied into the record and returned to you:

Complaint: State of Illinois.

Give interviews of Persons seen, Arrests, Completions,
Discharged or Property Recovered:

John A. Becker, a United States Naval Cadet, of the Great Lakes Training Station, was found dead Sunday Nov. 11 in women's rest room at 565 Washington St., on 3rd floor by C. P. Propilla, 5859 Magnolia Ave., the engineer of building. Dominick Wafer, 835 N. Fairfield Ave., noticed blood on 3rd floor landing and told the engineer who upon investigation found dead body in rest room at about four P. M., and he then notified the police. Becker was last seen in line at training station by Commander Riley at 4 P. M., Nov. 10. At 8 P. M., he was missing from camp having left without permission. In our investigation we find Becker received \$35 salary Friday Nov. 9, and that he visited Hyman Ginsberg's pawn shop 527 W. Madison St. at about 7 P. M. and took out a watch which he had pawned under the name J. J. Schultz, Great Lakes, and a ring which he had engraved; he paid Ginsberg \$16.00. Mr. Ginsberg visited Sheldon's morgue and identified J. A. Becker as the man who pawned watch under name of J. J. Schutz. About 7:30 P. M. Becker

called up Mary Williams, 3140 Fulton St., and said he was going to 35th & Halsted St. and would not be able to call on her till about 8:30, but he did not get to her home at all. At about 8 P. M. Patrick Redmond, night watchman, for Williams & Co. heard a quarrel in rear of building, 601-613 Washington St., and Sunday morning saw a pool of blood in the alley. At 8:10 P. M., Thomas C. Nolan, 4310 Monroe St., a clerk for C. B. & Q., R. R., saw a sailor at Jefferson & Washington Sts. alking east when he got along a little he looked back to see how the sailor was getting on, as he was bloody and sailor had disappeared. This is in front of building. Where body was found: The supposition is that Becker was in quarrel in alley and then wandered into building at 565 Washington Street, where he died.

N. C. Starr, F. C. Boykin were in Ginsberg's pawnshop when Becker took out his watch. They are sailors at Great Lakes, but they do not know Becker. We secured the number of watch and made report on same, also had finger prints taken, photographs and plats taken of premises. We made a canvass of building at 565 Washington St., saloons, hotels and stores in neighborhood trying to get a clue to case. We took a sample of

blood from alley in rear of 613 Washington St., at 5 P. M., Nov. 13, and sent it to Coroner's office, for examination, who informed us that it washuman blood. We are still investigation case, and doing everything in our power to clear up case.

November 14th, 1917.

From: Sergts. O'Malley & Walsh.

To: Captain 17th District.

In reference to the John A. Becker case, we went out to the Great Lakes Training Camp yesterday and interviewed Lieutenant Robinson, the paymaster, who told us that Becker drew \$35.00 Friday, Nov. 9th, and that he left the camp Saturday, Nov. 10th, between 3 P. M. and 8 P. M. without leave. He then brought us to see Lieutenant Muir who is in charge of Executive Office; he introduced us to Lieutenant C. J. Riley, Commander of 10th Regiment. We told him about finding the sailor's cap, leggins and the three pieces of pants in taylor shop at 18th E. Halsted St. with the names of Metz, Winters and Trenholm stamped in them. He sent for Metz and

Winters who said that on Saturday, Nov. 10, they went to 18 N. Halsted St. in company of Trenholm and a boy named George B. Thomas, of Co. B, and had their pants shortened. Metz said that he left the car and legging there with the intention of calling for them Sunday, and when he got to the place he said it was closed. We also went to see George B. Thomas, who is in the hospital. He told the same story, as Metz and Winters. We also interviewed L. C. Sutton, commander 10 Regiment, who said W. N. Trenholm was on a 48 hour leave, and not due back until Wednesday noon. We interviewed J. A. Kruzberg, commander of Camp Perry, said he knew Becker since August 10, 1917. He said he drank a little but was always on time. We then went to see a fellow named Berge Morvik, in Cally #101, Camp Duway, who was supposed to have known of a sailor that was beat up Saturday night at Washington and Jefferson. He told us about a fellow named John B. Van Hoozer, who said that he and a fellow J. M. Barnes left the camp at 1 P. M. Saturday, got into Chicago about 2 P. M. and went down town and walked around until about 7 P. M., when they went out to Riverview Park. Barnes went in the skating ring and Van Hoozer hung around outside, when he got talking to a

girl who he did not know. While he was talking to the girl a fellow who he never saw before came along and said to the girl. "Is that all you can get, is a sailor?" When he struck the fellow and the fellow struck him. He fell down and that is all he remembered. He said he was taken to the County Hospital and left there at about 10 A. M., Sunday. Sergt. Walsh went to the Receiving Ward of Hospital and was told by the clerk that Van Hoozen was received there about 11:10 P. M., Saturday, from Officer Conroy, and Collins, of the 35 Precinct. We then interviewed James M. Barnes, who said that he went to Chicago with Van Hoozer Saturday at 1 P. M., got off at C. N. W. depot, went down town, walked around until seven o'clock, then went to Riverview Park, went into skating rink and skated till 10:30 P. M. The last he saw of Van was about 9 P. M. He left at 10:30 P. M. went down at depot and stayed around the depot till 4:45 A. M. and returned to camp. We then interviewed Raymond Brennan of Shipes Company who said that his folks live at 917 S. Oakley Ave., Chicago. He said he had a girl named Lena Teachnor, 411 NO. LaCalir Avenue. She came out to see me about August 30th with a girl named Mary Williams. I introduced her to Becker. The last time I saw Becker

was last Wednesday. I left Camp Saturday at 12:10 P. M. and got home at 2:15 P. M. We went to dance at Victoria Hall, got home at 1:30 A. M., remained home till 8 P. M., Sunday evening, then went to Dreamland and met Lena and Mamie Collins, who lives next door to Lena. I went from Dreamland to my home at 12:10 A. M. Got up at 5:30 and returned to camp at 6:30 A. M. We interviewed J. F. Bennett, Co. I, Camp Ross, who said the last time he saw Becker was when he was in line at drill. He said to Becker, "Are you going to Chicago?" He said yes, if I can get off; if I can't I will take it over the fence. He said that he would see me at 26th St. and Halsted. I got into Chicago at 8 P. M., Saturday. I went over to get something to eat on Madison St. Then I got on a car and went over to Clark and Chicago Avenue. I met Billie O'Donnell, head waiter in the Belvidere Cafe, Clark and Chestnut St., on Clark St., in middle of block, south of Chicago Avenue. I left O'Donnell and went over to John McDunna saloon, Wendell & Franklin St. at about 7:15 P. M. From there I went to 10:38 Franklin St., saw Mrs. McQuirk and John Corcoran; then I went out south to Hank's saloon. I got there at 4 P. M., saw Joe Willson; stayed there till 12 o'clock; then

took auto ride to 63rd and Halsted St., with Joe Willons; then came back to 36th and Halsted and went home with Tony who lives on 2523 Lenie St., and slept there till 8:30 A. M. Then I went over to Hank's, 2635-2535 So. Halsted St., had dinner with Hanks, stayed there till 3 P. M., when I met Mullen and we both went over to North Side, and hung around till 11 P. M. Then we started for the depot at about one block from the depot we bought a Record-Herald and we saw the account of a sailor's death. We went over to Sheldon's Morgue and identified Becker.

Then we interviewed Mathew Mullen of Co. I. I left camp Saturday at 4 P. M., went to Chicago alone, went to see my girl at 3954 Castello Ave., her name is Girtie Johns, left there 10 P. M., got back at camp at 1 o'clock, and on Sunday I left camp at 1 P. M., went into Chicago, went south and met Bennett at 3 P. M. and went over to North Side. I have known Becker for 10 or 12 years. We lived in St. Louis together. The last time I saw him alive was in camp Saturday. Becker was peaceable fellow; he drank beer. I never saw him drunk. The sailors that were interviewed in the above statement their movements were investigated by us and we believe

them to be true as far as we could learn.

Respectfully submitted,

Thomas O'Malley,

Frank V. Walsh, 27th Precinct."

Q What kind of noise?

A Well, kind of a scuffle or fight, or something like that, but I didn't pay any attention to it; I hear that noise regular. It was over in the alley and I was twelve feet below.

Q Did you hear any words spoken?

A Not that I understood.

Q Let me ask you, Mr. Redmond, about how far in would you say that was in feet from Jefferson Street?

A Well --

Q Your loading platform is on the south side of the building, the south end? A In the west end, the loading place is in the alley.

A BYSTANDER: Southwest corner of the building.

Q Let me ask you this one question: The voices that

you heard could you tell whether they were male or female voices?

A They were all male voices, there were no females in it at all, as I understood.

Q Sunday morning did you go out in the alley?

A Yes, sir.

Q Did you notice any blood there? A I did, sir.

Q Big pool of blood? A Not very much.

Q Where was it in relation to the loading platform?

A It was on on the property of Williamson at all, - in the alley.

Q How far from the edge of the loading platform?

A About four feet.

Q Over here where you are.

A At the end of the platform like the blood was here (indicating) and the loading platform was twelve feet in.

Q You are speaking about the loading platform where they back up the wagons? A Yes.

Q The pool of blood laid right out there?

A That angle iron is right over there (indicating).

Q Somebody threw some water on that, do you know anything about that? A No, I don't.

Q Made it look bigger than when you seen it?

A The horses had been backing in there.

Q It was as big as the top of my cap. A Maybe, when I seen it.

Q That was about five o'clock next day.

THE DEPUTY: That will be all, Mr. Redmond.

(Witness excused.)

T H O M A S T. M E A G H E R,

called as a witness, having been first duly sworn, was examined by the Deputy Coroner and testified as follows:

Q What is your name? A Thomas T. Meagher.

Q Captain of Police of the 27th Precinct? A Yes.

Q There is no question in your mind but what this is a case of assault, robbery and murder?

A Well, the robbery part can only be from the loss of his watch.

Q And his money? A And money, yes.

Q He was known to have received some moneys in change from this pawn broker just a few minutes previous to this assault. I want to tell you that I think you have got it pretty well connected.

A We are right on the right track, and we are satis-

fied beyond a reasonable doubt, we don't figure any women in the case or anything at all.

DOMINICK WAFER,

called as a witness, having been first duly sworn, was examined by the Deputy Coroner and testified as follows:

Q Your name? A Dominick Wafer.

Q Where do you reside, Mr. Wafer?

A Through the front door.

Q Upon entering the building did you go up the stairs?

A Yes, sir.

Q To what floor? A A Third floor.

Q That was seven o'clock in the morning?

A About twenty minutes after.

Q Seeing the blood, did it attract your attention?

A Yes, it did.

Q What did you do? A I stopped there for about five minutes, and I noticed the blood. I thought some one hit his head or something. I then thought there was an accident of the elevator, and I stood there and I didn't hear any cries or movements of any kind there. I had to wait on the landing because he had the keys to the door. We got upstairs and started to work and we didn't seem to bother about it.

Q Undoubtedly this man was alive.

A I didn't hear any movements or cries, I didn't see any trail of blood.

Q If you had only spoken about that time we would have got there; of course I think the man had died.

A You never think of murder the first thing in the morning, and if I knew there was a dead man in there --

THE DEPUTY: We have nothing on you, Mr. Wafer. That will be all.

If there is no further evidence we will submit the case to the jury.

I, W. P. In witness whereof, I hereunto set my hand.

W. P. Seanlon
